

Thank You, Axel!

It's been a pleasure building this with you. Before we flip the site live, here's a quick confirmation to make sure everything is exactly how you want it.

For Axel Peytour (Qeero) · Prepared by Natua · Pre-Launch Confirmation

The site is built, reviewed, and ready to go — thank you for being clear and quick with feedback throughout, it made this a smooth project to deliver. This document is a simple confirmation that everything is approved before we make it live, and a note on how any future edits will be handled afterward.

Pre-Launch Confirmation

By signing below, you confirm that you've reviewed the site on staging and approve the following before it goes live:

- ✓ All content, text, and images are accurate and approved
- ✓ Logos, testimonials, and FAQ content are correctly in place
- ✓ The contact form and “Get a Quote” WhatsApp buttons have been tested and work correctly
- ✓ The site looks and functions correctly on both desktop and mobile
- ✓ No further changes are needed before launch

After the Site Goes Live

Once the site is live, the project is considered complete and delivered as approved above. Any further edits, additions, or changes requested after launch are handled as separate work, billed at **€15 / hour**, with a **2-hour minimum** per request, discussed and agreed before any additional work begins.

This keeps things simple and fair: the approved site above is what's delivered under the original project price, and anything beyond that is new work, priced on its own.
